AUDIOLOGIST

Texas Ear, Nose, & Throat Specialists, L.L.P. is an independent, physician-owned specialty practice focusing on providing quality and efficient patient care in a compassionate environment. We have 4 locations with 8 physicians, 1 Physician Assistant, and 3 audiologists currently. We have multiple locations but are still a small practice with just over 45 employees. Each location is set up to have a dedicated audiologist on site, with no travel required. We offer a busy, fast-paced schedule, loyal patients, a great referral base, and a family-centered work environment. We are looking for an audiologist who offers exceptional quality audiograms and works to support the physician in the clinic, in addition to successfully dispensing hearing aids.

Responsibilities:

- Inspect the ears and related structures of the head.
- Test hearing performance and related functions, including children with conditioning audiometry.
- Counsel patients regarding hearing healthcare.
- Perform hearing tests to determine the functionality of hearing and nerve connections in the ear.
- Explain the test results to patients.
- Provide information about conditions for which patients seek help.
- Recommend hearing aids or other treatments for conditions that can be treated and monitored by a medical professional.
- Treat conditions that include tinnitus (ringing in the ears), vertigo (dizziness)
- Support the physician's patient load and work-in patients as requested.

This position is a full-time position.

Competitive salary, plus monthly commissions.

Please send resumes to Whitney Fields at hiring@texasent.net.
