

AUDIOLOGIST

Texas Ear, Nose, & Throat Specialists, L.L.P. is an independent, physician-owned specialty practice focusing on providing quality and efficient patient care in a compassionate environment. We have 4 locations with 7 physicians and 3 audiologists currently. We have multiple locations but are still a small practice with just over 45 employees. We offer a busy, fast-paced schedule, loyal patients, a great referral base, and a family-centered work environment. We are looking for an audiologist who offers exceptional quality audiograms and works to support the physician in the clinic, in addition to successfully dispensing hearing aids. This would be a part-time position with the possibility of moving full-time as the needs of the practice evolve.

Responsibilities:

- Inspect the ears and related structures of the head.
- Test hearing performance and related functions, including children with conditioning audiometry.
- Counsel patients regarding hearing healthcare.
- Perform hearing tests to determine the functionality of hearing and nerve connections in the ear.
- Explain the test results to patients.
- Provide information about conditions for which patients seek help.
- Recommend hearing aids or other treatments for conditions that can be treated and monitored by a medical professional.
- Treat conditions that include tinnitus (ringing in the ears), vertigo (dizziness)
- Support the physician's patient load and work-in patients as requested.

The position is open to full-time or part-time.

Salary: Competitive salary plus commission

Location: Flower Mound, TX

Please send resumes to Whitney Fields at wfields@texasent.net.
